3

Indiana bats have a distinct mating season that lasts the first 10 days in October. They replenish their fat reserve from the Summer months before they will go into hibernation in late November.

4

Fall Back... Day-light savings time ends November 4 – make sure to set your clocks back an hour.

5

6

8

Did you know...

100,000 marine mammals die each year from eating or becoming entangled in plastic debris.

9

10

11

12

13

Did you know...

500,000 trees could be saved if everyone recycled their Sunday newspaper.

14

15

America Recycles Day

Do your part and tell a friend – do your part and increase your recycling efforts.

16

17

Help dad rake the leaves in the backyard. Remember, ground leaves make a great composting ingredient.

18

Did you know... Even though Americans comprise only five percent of the world's population, we use nearly a third of its resources and produce almost half of its hazardous waste.
