Dear Dr. Stahl:

The provision of an exceptional education within a quality environment is the goal of Delaware State University as we press forward on our journey to becoming one of the highest ranked Historically Black Universities in the country. As an institution we have made a formidable commitment to active change, physical growth and development, community involvement, academic and social program diversity, fiscal responsibility and student service.

We progress as a result of the dedicated efforts of our campus community, partners and benefactors. The support you have provided to the Delaware State University Foundation in the amount of \$30,000 is received with great appreciation and will be allocated per your request for the Clear Into The Future Graduate Student Fellowship Program.

U.S. News and World Report has listed Delaware State University as number 17 in its 2010 ranking of the best Historically Black Colleges and Universities in the country. Your gift to our University is recognized as an essential component in our path toward excelling in performance among our peer institutions. Your continued support is invaluable to the realization of our University mission as we strive to produce well rounded, highly educated and motivated individuals, whose contributions will reach positively into every facet of society.

Graciously,
